

Engineered Oak Flooring

LB Timber

from \$60.00

Description

Engineered oak flooring combines the authentic beauty of natural oak with superior stability and durability. Featuring a solid oak veneer top layer bonded to a plywood base, this construction delivers exceptional performance across all interior spaces - from living areas and bedrooms to kitchens, bathrooms, and basements. The oak surface showcases genuine wood grain and character while the engineered core provides dimensional stability across temperature and humidity changes. Easy to install, maintain, and refinish, engineered oak offers the warmth and elegance of traditional hardwood at a practical price point. Perfect for both new builds and renovations, this flooring brings timeless appeal to any interior application.
