

Blackbutt Shiplap Cladding

LB Timber

from $10.50

Description

Blackbutt cladding combines aesthetic appeal with proven structural integrity for discerning builders and homeowners. This solid timber showcases rich golden-brown hues and subtle grain patterns characteristic of premium blackbutt. The engineered shiplap profile creates weather-tight joints that shed water effectively, while the timber's natural density resists rot, termites, and UV degradation. Ideal for coastal properties, bushfire-prone regions, and high-exposure applications. Blackbut-t's dimensional stability minimises movement across seasonal temperature variations, ensuring long-term performance without costly maintenance or replacement.

Specifications

Species	Blackbutt
Profile	Shiplap

Variants
